ABOUT US

SEDJRO MARINE SERVICES,

Is a Limited Liability Company, whose registered office is at Cotonou, Guinkomè at PK3 Carrefour Tunde Motors Route De Porto-Novo Cotonou – BENIN and a branch office in Vogan-kome , opposite assembly of God, Lome-Togo. It is a company founded in association with a group of Beninese businessmen. It aims to provide mainly shipping agency services, bunkering, petroleum product sales, ship protecting, and various marine services.

VISION

“To become a
Leading shipping
company by
providing a
delightful customer
service for the
Marine Sector and
the world.”

MISSION

- ❑ Implement the Management System Conforming to the best industry standards.
- ❑ Ensuring continual improvement of the organization's overall performance.
- ❑ Imbibe modern technologies to improve vessel reliability.
- ❑ Exercise due diligence to have zero Incidents and zero environmental pollution.
- ❑ TEAM work with our stakeholders, other government bodies, clients, and maritime industry to improve safe working Practices in ship operations.
- ❑ Ensuring Client satisfaction by providing Integrated Value added Marine Solutions.

“We pride in our
efficiency and quality
services delivery”

OUR COMPANY VALUES

- Being Honest and Trust worthy.
- Maintain high Safety standards on board.
- Being Proficient and accountable.
- Product & Service efficiency.
- Having Integrity and Being Fair to others.
- Respect local tradition and knowledge.
- Understanding & Respecting Human values.
- Follow best & ethical standards of Business Practices.
- Deliver service excellence to customers.

SHIPPING AGENCY

Is able to accommodate all types of vessels such as: Cargo ships, Tankers, RoRo (Roll on Roll Off), Reefers, Research, Tugs boat , Etc..... For which we offer an excellent quality of shipping services in terms of competitive rates and reduction of turnover time, crew change, protecting agency...

SAFETY OF OUR SERVICE AREA - LOME PORT

It became important as an administrative, commercial, and transport center.

Inland haulage includes transportation from vendors to the port of shipment, and from discharge port

SHIP TO SHIP BUNKERING

In the shipping industry, we use the word bunker for fuel and lube oils, which are stored on a ship and used for machinery operation only. If a vessel is carrying marine fuel or lube oil to discharge it to another port, it will not be called “bunker”. If the vessel is carrying it to transfer to another ship for using in its machinery, it will be termed as “bunker” and the operation performed to transport the oil is known as “bunkering”. We offer these services to all ships within the Lome port and cotonou offshore.

Our Company may consist of several departments with specific responsibilities: purchasing, sales, technical departments, logistics department etc...to meet the need for acquisition.

OUR SERVICES

SUPPLY OF ARMED SECURITY

SHIP SLUDGE OIL SLOP REMOVAL SERVICE

With our expertise approach to environmental policies of waste oil minimization and recovery, Sludge Oil Slop has the ability to safely and effectively remove ship slop oils and often with financial gains to the ship owner. As a part of our operations we are fully equipped to remove the slop oil, transport the oil for safe disposal and recycle the slop oil into a usable product, using our organic waste oil treatment plant. The ship owner will then be issued with a safe disposal certificate easily, stating the amount of oil recovered and water and sludge content.

OUR GROWTH WILL BE ALLOVER THE WORLD SOON!!!

**EXPORING WEST AFRICA TO
SERVE THE WORLD.**

SERVICES → DIVING

DIVING OPERATIONS

Our professional operates in all areas relating to offshore and ports, we believe a trail will convince you...

UNDERWATER INSPECTION OF PORTS AND OFFSHORE FACILITIES

Inspection of hydro technical structures and offshore facilities includes complex of works such as survey, revaluation (if needed) and testing of construction/facility. Because of this such kind of work can be done only by specially trained divers, who have approved documents and skills.

Specialists from «Diving Marine service» have all the necessary permissions and long-term experience to inspect the hydro technical structures underwater and offshore facilities .
